LETTER FROM

HELLO *Gorgeous*

We are very excited about this opportunity to partner with you in strengthening, developing, and uplifting women. Many women, although functioning, have come

from broken environments. For example, many women come from fatherless homes which brings upon its fair share of traumas and dysfunctions that carries into adulthood. Many women are living off the mindset of survival. Yet, leaving their mental, spiritual, and emotional challenges unaddressed. The hardships, disappointments, and the unstableness of life have choked the fruit out of many women. Women are looking for validation and affirmation from a world that was not intended to fulfil or heal them.

Hello Gorgeous serves as a life and light giving ministry and resource to promote as a reminder of Gods original plan and purpose for their life. According to certain demographics some women do not know that change is possible due to their lack of exposure. Hello Gorgeous speaks to women's hearts and mind by sharing Gods word and principals that can help women heal, get a clear vision, walk in wisdom, confidence, and pursue the life God has for them as whole women. Events such as Ladies First are designed to speak wisdom, hope, empower, and create unity in sisterhood. The goal is to assist in the transformation of women in our communities no matter their race, beliefs, or classism. Hello Gorgeous understands change starts from the inside out. We want to enlighten and encourage women to heal and assist with removing the stumbling blocks that are hindering them from having a successful life. Women are the backbone to mostly everything but if left impoverished, they will only thrive so far and possibly pass their brokenness down to future generations..

Please consider in joining in partnering with us helping us be a tool to building up women by way of transformation, being a resource, and an impact in our communities /city for women.
